DETAILED ACTION

Response to Amendment

Applicant's amendments to the specification and claims, filed 9/21/2009, are accepted and appreciated by the examiner. Applicant has canceled claim 17 and added new claim 24.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark Svat on 11/30/2009.

The application has been amended as follows:

On the first page of the specification, after the title, please insert the heading:

--BACKGROUND AND FIELD OF INVENTION--

After the first paragraph of the first page of the specification, please insert the following lines:

--BRIEF DESCRIPTION OF DRAWINGS--

--Figure 1 is a first preferred embodiment of the present invention.--

-- Figure 2 is a second preferred embodiment of the present invention --

--DETAILED DESCRIPTION OF THE INVENTION--

Allowable Subject Matter

Claims 1-9, 11-13, 15-16, 20 and 22-24 allowed.

The following is an examiner's statement of reasons for allowance:

. Applicant's amendments to independent claims 1, 13, 20 and 23 are sufficient to overcome the prior art of record. Applicant has amended the claims to include a board on which multiple fieldbus networks are "connected via the power supply converter and power conditioner". Further, applicants claims include monitoring signal injection points between the bulk power supply, the power converters of each fieldbus and their respective trunks.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Burns (US pat 5970430) discloses a fieldbus system with multiple sub-branches but fails to disclose multiple fieldbus networks connected to a bulk power supply.

These features, in combination, are neither disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
